DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 7/16/04 is acknowledged and considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-11, 14-25, 28-45 are rejected under 35 U.S.C. 102(b) as being anticipated by Ritchart et al. (4,994,069). Figure 2C of Ritchart et al. reference discloses a vaso-occlusive device as claimed (col. 4, line 45 to col. 6, line 36). Ritchart et al. also disclose a method of embolizing a vascular site including the steps as claimed (fig. 1, 2c, 7, 8A, col. 8, line 20 to col. 9, line 66). Note: The introductory statement of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Ritchart et al.'s device which is capable of being used as claimed if one desires to do so.
4. Claims 1-45 are rejected under 35 U.S.C. 102(b) as being anticipated by Jacobsen et al. (5,800,454). Jacobsen et al. disclose a vaso-occlusive device as claimed (Figure 3B). Jacobsen et al. also disclose a method of embolizing a

vascular site including the steps as claimed (Figure 1A, col. 2-3). Note: The introductory statement of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Jacobsen et al.'s device which is capable of being used as claimed if one desires to do so.

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-7, 9, 10, 20-23, 31-33 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of U.S. Patent No. 6,605,101. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims contain the common subjects.
